Body Protection

Stimela XP Wader

The Stimela XP Waders offer shoe comfort with full meta-tarsal protection in a gumboot. Safety toe protection and antipenetration ballistic textile midsole provides excellent grip and sole support and helps prevent rolling rock meta-tarsal and mid-foot injuries.

- » Absorbs impact – disperses it over the surface area
- » Flexible – retains the comfort of a PVC gumboot
- » Manufactured from SABS 1320 Type S10 grade PVC compound
- » Steel toe cap and midsole
- » Oil and acid resistant with high nitrile compound
- » Reinforced shin and ankle protection pad
- » Luminous ankle reflector for safety in high traffic
- » Chest wader with adjustable straps
- » Top pocket, adjustable waist cord

Ear Protection

PELTOR™ Extreme Performance H10 Series

The H10 Series is a high performance hearing protector and has been developed for use in extremely noisy environments. The protection is based on a technology with a double casing minimising resonance in the casing giving optimum high-frequency attenuation. An acoustic connection between the inner and outer casings provides maximum low-frequency attenuation. The sealing rings are broad and filled with soft plastic foam for the best fit and low contact pressure.

Unique double-shell cup design provides high attenuation for eight-hour TWA noise exposures up to 105 dBA

- » Represents the ultimate in earmuff technology by combining extreme noise protection with exceptional wearer comfort
- » neckband format
- » Patented liquid & foam filled cushions provide a quality noise seal with low pressure for all day wearer comfort
- » Stainless steel headband wired with four point suspension helps distribute cushion pressure evenly & earcups pivot for consistent fit

Suggested Applications:

- » General Industry

Foot Protection

SnakeProtex durable and lightweight gaiters are scientifically proven to protect the wearer from the world’s most venomous snakes. They outperform similar products currently available on the market globally. Developed in Australia, home of some of the world’s deadliest snakes, SnakeProtex™ have been hugely popular amongst campers, hikers, council workers, surveyors, hunters, and home gardeners — and now, they have been improved even further!

The all new SnakeProtex Extreme sports a range of features such as adjustable boot straps allowing for a better fit amongst a larger range of different boots and shoes. Adjustable top leg straps allow for a firmer, closer, and safer fit. A new press tab installed to clip over the zipper provides better security stopping the zip from moving whilst walking, working or out having fun.

With its water-repellent tendencies and tougher 900 weight denier external black fabric, the new gaiters now offer you even better protection from snake strikes while looking like every day work-wear and lasting the distance.

Hydration

Thorzt "Heat Stress Forecast" Sign

The key to implementing a strong heat stress management programme on site is education. Once workers understand the importance of hydration, and when to hydrate (which is not only when you feel thirsty), an OHS heat stress management programme and disciplined hydration naturally becomes inherent in the workplace culture. The Thorzt Heat Stress Signs assist with educating staff about the importance of hydrating in the workplace, as well as the warning signs of heat stress and hydration guide.

- » Educational awareness
- » Simple and can be displayed on site as a constant reminder to workers
- » Size: 900mm x 600mm

First Aid Kits

WORKPLACE FIRST AID KITS AND OFFICERS GUIDE

WORKPLACE SIZE	HIGH RISK	LOW RISK	FIRST AID KITS TO WORKERS RATIO	NUMBER OF FIRST AID OFFICERS
100 or more workers	No	Yes	» 1 First Aid Kit for first 50 workers » 2 First Aid Kits for 100 workers » 1 additional First Aid Kit for every 100 workers thereafter	» 1 Officer for 25-50 workers » 2 Officers for 51-100 workers » Additional officer for every additional 100 workers
25 or more workers	Yes	No	» 1 First Aid Kit for first 25 workers » 1 additional First Aid Kit for every 50 workers thereafter	» 1 Officer for up to 25 workers » 2 Officers for 25-50 workers » Additional Officer for every additional 50 workers
10-100 workers	No	Yes	» 1 First Aid Kit is to be provided	» 1 Officer for 25-50 workers » 2 Officers for 51-100 workers » Additional Officer for every additional 100 workers
25 or less workers	Yes	No	» 1 First Aid Kit for first 25 workers » 1 additional kit for every 50 workers thereafter	» 1 Officer for 25 workers » 2 Officers for 25-50 workers » Additional Officer for every additional 50 workers
10 or less workers	---	---	» 1 First Aid Kit	» Risk assessment conducted to identify the need to provide a First Aid Officer

FIRST AID KIT GUIDE

HIGH RISK WORKPLACE	LOW RISK WORKPLACE
EXAMPLE: Construction, Warehousing, Manufacturing, Laboratories	EXAMPLE: Office Buildings, Home Offices, Retail Shop, Cars/Trucks
DEFINITION: A workplace where workers are exposed to hazards	DEFINITION: A workplace where workers are not exposed to hazards
RECOMMENDATION: 1 first aid kit should be provided on site for at least every 25 people	RECOMMENDATION: 1 first aid kit should be provided on site for at least every 50 people

FIRST AID SITE ASSESSMENT

A periodic assessment schedule of your workplace first aid equipment will allow you to identify hazards and determine typical injuries or illness that may require rapid treatment. The assessment should also consider number of employees and work area design as first aid should be easily accessible and available within minutes of the injury location.

ASSESSMENT GUIDELINES FOR WORKPLACE FIRST AID

As business operations are constantly changing to meet customer demands your workplace first aid requirements may also require adjustments.

FIRST AID RECOMMENDATIONS

- » **STEP 1 HAZARDS:** Identify potential causes of workplace injury and illness
- » **STEP 2 INJURIES:** Assess the risk of workplace injury and illness
- » **STEP 3 REMEDY - WHAT FIRST AID IS REQUIRED:** Choose the First Aid Kit that is suitable for the workplace
- » **STEP 4 REVIEW FIRST AID TO ENSURE EFFECTIVENESS:** Choose additional Add-On Packs to ensure the whole workplace contains adequate First Aid on site at all times

CHOOSE THE RIGHT FIRST AID KIT IN 3 STEPS

- » **What type of workplace do you have?**
 - » Vehicle
 - » Office
 - » Remote

» **What are the additional risks?**
 - » Outdoor work injuries
 - » Burn injuries
 - » Eye injuries
- » **Is your workplace high or low risk?**

Low Risk: Number of people designed to assist workplace rating of “Low Risk”

High Risk: Number of people designed to assist workplace rating of “High Risk”

AlcoCheck® FC300e

The accuracy of the AlcoCheck® FC300e breath alcohol test has been established at a blood alcohol concentration of 0.005. The backlit screen changes colour when the alcohol content of the sample exceeds 0.05. Results can be printed via USB cable connection to optional printer.

- » 510(k) cleared for OTC
- » European fuel cell sensor: 3/4" (19mm)
- » Detection range: 0.00 – 0.50%
- » Colour change of display if above legal limit
- » Available with U.S. and E.U. measurements
- » Accuracy: +/- 0.005% at 0.05%
- » Memory: 1000 records
- » Memory download to PC
- » Pro blowing sensor
- » Power: 9V battery or DC 12V
- » Optional portable printer, cable, and carrying case

SKU	DESCRIPTION
1716-00004	AlcoCheck® FC300e
1716-00007	AlcoCheck® Mouth Piece

AlcoCheck® FC90

The AlcoCheck® FC90 (AT578) handheld fuel cell sensor is certified by the U.S. Department of Transportation (DOT) to conform to the model specification for alcohol screening devices. With accuracy to +/-0.005% at 0.05%BAC, the DOT approved AlcoCheck® FC90 (AT578) meets the standards set by the DOT and National Highway Traffic Safety Administration (NHTSA) for screening devices to measure alcohol in bodily fluids. The FC90 breath alcohol device is also 510(k) cleared for OTC.

- » DOT and NHTSA approved
- » Electrochemical European fuel cell sensor
- » Accuracy: +/-0.005% at 0.05%
- » Display range: 0.000-0.200%BAC
- » Audible alarm above 0.05%BAC
- » Blowing time: 6 seconds

Alcolizer HH3 Alcohol Tester

Alcolizer HH3 Alcohol Tester (HH3) has been specifically designed for alcohol breath testing in small to medium industrial enterprises. HH3 is the ideal entry-level breathalyser for businesses and industries aiming to maintain a safe workplace for their employees.

Rugged and proven to perform, HH3 conducts Active and Passive testing and enables data download via Alcolizer's AlcoCONNECT™ Toolbox software.

Alcolizer chooses to exclusively use the highest-grade platinum electrochemical fuel cells for all of our handheld alcohol breath test products, including HH3. Proudly manufactured in Australia to the highest quality standard (ISO:9001) and holding Australian Standard AS 3547 Type 2, HH3 is supported by a 36 month warranty from us – the manufacturer, Alcolizer Technology.

Comes with: AC/DC charger and Vehicle charger, USB data download cable

Alcolizer WM4 Wall Mounted Alcohol Breath Tester with Transit Case

- » Self-calibrates every 24 hours
- » Instant recovery for zero test
- » Unlimited testing
- » Ethernet interface
- » RS232 serial ports
- » Colour LCD display
- » LAN connectivity in every mode
- » Customisable screen messages
- » Strong, durable transit case

Designed for commercial and heavy use industrial alcohol breath testing. WM4 processes high worker volumes while delivering superior and accurate test results.

WM4 is the only wall mounted alcohol breath tester on the market today with unparalleled connectivity supported “out of the box”. These include an on-board ARM Cortex-A8 CPU and Customer Programmable Colour Screen. WM4 has a range of connectivity options to suit almost every access requirement including; Keypad, Swipe card, WIEGAND, Live Secure Reporting USB and RS232.

The WM4 is designed to support your Alcohol and Other Drugs testing programs. Configure WM4 so that you can service simple self-test stations, alcohol test sign-in stations (for visitors and/or contractors) or fully integrated staff management systems.

Each new WM4 purchase comes with a strong and robust Transit Case that protects your Alcolizer Wall Mount 4 when transporting or moving it.

Proudly designed and developed in Australia by Alcolizer Technology, WM4 is manufactured in to the highest quality standard (ISO:9001) and holding the Australian Standard AS 3547 Type 3.

Alcolizer Straw Mouthpieces Unwrapped Biodegradable (to suit WM4)

These new biodegradable straws provide the same experience as plastic straws – that being they have the same fortitude of physical tensile strength, size and durability. Should one of these straws find itself in an open environment, it will after a time become brittle like a leaf and degrade to CO² and Biomass. This will not only positively impact landfill capacity but also assist in reducing long-term harmful impacts of plastics on the environment.

Spill Control

Oil & Fuel Spill Kit 80L

The MAX-80HC is a carry bag spill kit that offers a solution to oil & fuel spills in the workplace or on site. The hydro-phobic absorbent present in the MAX-80HC exclusively absorbs oil and fuel while repelling water. These absorbents are far more effective at oil and fuel absorption than our universal and chemical variants. This unit can hang on a wall or go behind the seat in the cab, and is easily carried to a spill. The MAX-80HC can absorb spills up to 80 litres in volume and can contain much larger spills to isolate contaminants from waterways.

- Kit contains:
- » 4 x 1.2m absorbent minibooms
 - » 50 x 410mm x 460mm absorbent pads
 - » 1 x 5kg MAXSorb premium floorsweep
 - » 2 x printed disposal bags
 - » 1 x industrial brush & pan set
 - » 1 x elbow length PVC gloves
 - » 1 PVC labelled carry bag
 - » 1 x product instruction sheet including re-order form

SKU
1714-00079

Oil & Fuel Spill Kit 120L

The MAX-120HC is an industrial grade spill kit that offers a solution to oil & fuel spills in the workplace – this could be in a truck yard, petrol station, or mine site. The hydro-phobic absorbent present in the MAX-120HC exclusively absorbs oil and fuel while repelling water, making it ideal for marine applications. These absorbents are far more effective at oil and fuel absorption than our universal and chemical variants. This unit occupies minimal floor space and is easily wheeled on uneven terrain to a spill. The MAX-120HC can absorb spills up to 120 litres in volume and can contain much larger spills to isolate contaminants from waterways.

- Kit contains:
- » 3 x 3.0m absorbent minibooms
 - » 50 x 410mm x 460mm absorbent pads
 - » 1 x 10kg MaxSorb premium floorsweep
 - » 1 x industrial brush & pan set
 - » 1 x elbow length PVC gloves
 - » 4 x printed disposal bags
 - » 1 x 120L labelled wheelie bin
 - » 1 x product instruction sheet including re-order form

Premium Floorsweep 15kg

MX50 is a non-toxic, all natural, organic, economical, industrial absorbent. It is also non-abrasive, non-leaching and naturally breaks down hydrocarbons. MX50 contains oil eating bacteria to naturally decompose hydrocarbons. This granular absorbent offers a far more environmentally friendly alternative to cellulose based products such as cotton pulp, paper and wood fibre, all of which only absorb spilt material, requiring specialist disposal.

- » Ideal for road transport spills, mining and exploration, fabrication shops, civil works, chemical storage and marine spills
- » Absorbs oil, fuels, solvents and chemicals

Road Safety

Zebra Barrier Roll

The Barrier Roll was designed as a temporary barrier with the ability to be stored portably and used again many times over. It is very cost-effective against traditional barrier mesh and has much more impact and security. The strongly woven HDPE mesh is UV treated and incorporates ‘button-hole’ attachments within the weave at close intervals, top and bottom of the mesh’s width. This unique feature allows the mesh to be easily attached/hooked onto the Zebra Picket Sleeves which slip over the pre-installed picket posts.

- » Extremely durable
- » Simple installation and compact storage
- » Highly visible orange colour with yellow stripe
- » Can be custom printed with your company name etc.
- » Lengths can be custom-made
- » Different colours for different applications
- » Designed and made in Australia

SKU	DESCRIPTION

1710-00951	Barrier Roll 10m
1710-00952	Barrier Roll 20m
1710-00911	Zebra Picket Sleeve Yellow Top

Custom designs and specifications are available upon the customer's request.

Zebra Safe Pickets

The Zebra Safe Pickets are a safer alternative to steel star pickets or Y posts. The Safe Picket is made from fibre-glass-reinforced epoxy resin and was designed in Australia to suit our tough conditions.

- » Non-conductive
- » Very strong
- » Lightweight
- » Reusable
- » Non-corrosive
- » Non-stick surface
- » Cool to handle
- » Rot and ant-proof

Available in various lengths and colours, get in touch for more information (subject to order guidelines).

Close-up profiles of the safety picket, bottom of picket (L), top of picket (R).

Road Safety

Zebra Picket Sleeve

The Zebra Picket Sleeves are made from tough, UV treated HDPE material, the caps can be used over and over, they are lightweight, strong and very easy to install. Triangular shape fits over star-pickets. Different colours for different applications. Used in mining to demark heritage & special environments, the versatile design is also ideal for hanging mesh from or attaching signs or reflectors as delineators - or purely as a protection cap.

The common configuration used by mining is a three-section cap (1x top and 2x extensions) at 600mm in total length. The top cap is 300mm long and each added bottom section adds 150mm per unit.

- » Versatile, re-usable, tough
- » High-Vis Protection
- » Use it to hang the Zebra Barrier Roll mesh
- » Can support wire/ribbon
- » Attach signs, flags, reflectors etc.

SKU	DESCRIPTION
1710-00901	Clip for Sign

Sun Protection

ProChoice Sunscreen

It's here, the ProBloc SPF 50+ Sunscreen range has landed and is now available for purchase in a range of convenient sizes, from our pocket size 12g Lip Balm right up to our power packing 1L Pump Bottle.

The all new non-greasy PABO and nanoparticle free formula has increased SPF 'Sun Protection Factor' from UVB rays (the ones that burn the skin) and improved 'Broad Spectrum Performance' to provide even more protection from those harmful cancer causing UVA's. With 4 Hours Water Resistance, ProBloc SPF 50+ is highly recommended when working in conditions that induce heavy sweating, providing vital protection from the harsh Australian sun when you need it most.
