Maglite ML150LR LED Rechargeable Flashlight-1082 Lumens

The ML150LR 3C-Cell Rechargeable System LED Flashlight employs patented heat sink technology that allows use of a bright LED for law enforcement, security and general-use purposes. One of the characteristics in ML150LR is, the cradle can be powered either by the 12- volt DC electrical system of a vehicle or by 240v AC household current.

Maglite ML150LRX Rechargeable LED Flashlight-1082 Lumens

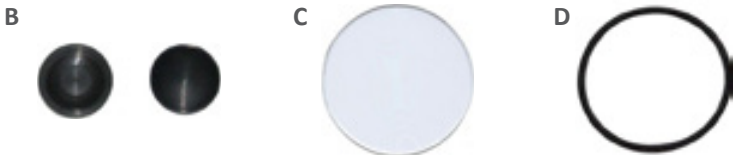

The Maglite ML150LRX is the first flashlight to employ that recently-patented technology, which is exclusive to Mag Instrument. So it is no coincidence that the ML150LRX™ is also Mag Instrument’s first thousand-lumen flashlight – despite its modest weight and dimensions.

Headlight LED Energizer HDC32

4 light modes: White spot light, white flood light, spot and flood together and red (night vision). Dimmable to control brightness and runtime (excluding night vision). Powerful LED headlamp beam - up to 4x brighter than standard LED technology. Water resistant and drop tested to stand up to harsh conditions. Includes 3 AAA Energizer® MAX® batteries.

H5R Core Headlamp Rechargeable 500 Lumen Boost

The H5R Core is a compact, yet powerful headlamp that is a convenient portable lighting solution which defies almost any weather condition. This headlamp is practical and versatile, thanks to the Ledlenser patented Advanced Focus System, continuous dimmability and 160-degree lamp head rotation. The H5R Core can be charged easily with magnetic charging and features a battery status indicator, so you know when to power back up.

H7R Core Headlamp Rechargeable 1000 Lumen Boost

The H7R Core is a versatile specialist among headlamps – powerful, durable and continuously dimmable. The Ledlenser patented Advanced Focus System allows you to easily transition light from a broad flood beam to a sharply focused long distance beam. The 130-degree rotating lamp head, quick magnetic charging and extreme dust and water protection make the H7R Core a reliable multi-purpose portable light.
